EVERYONE COUNTS!

2025 SCHOOL CENSUS

School Census—what is it?

The school census is an electronic collection of pupil data from all schools which takes place three times a year.

It collects information about individual pupils and information about the schools themselves, such as their educational provision.

The individual pupil information collected includes free school meal eligibility, ethnicity, special educational needs, attendance and exclusions.

The information you provide is used to help determine your school's funding.

Catering for the children
